André Farinha

Date of birth: 06/01/1992 | **Place of birth:** Tomar, Portugal | **Nationality:** Portuguese | **Gender:** Male | **Phone:** (+351) 918935203 (Mobile) | **Email address:** andre_farinha@hotmail.com | **Website:** https://github.com/AFarinha | **Address:** Tomar, Portugal (Home)

ABOUT MYSELF

Senior .NET Backend Developer with 10+ years of experience designing, developing and maintaining enterprise applications across healthcare, banking, insurance, retail and custom business solutions.

My main focus is backend development with C#, .NET, ASP.NET Core, REST APIs, SQL Server, Azure integrations and secure authentication mechanisms. I have experience building and maintaining APIs, scheduled background jobs, integrations with external systems and production-critical applications where reliability, maintainability and observability are essential.

Throughout my career, I have worked with both modern .NET solutions and legacy enterprise systems, including .NET Framework, Web Forms, Windows Services, SOAP services and SQL Server. This gives me a pragmatic understanding of software modernization, long-term maintainability and gradual migration from legacy platforms to more modern architectures.

I also have experience with fullstack and mobile technologies such as Angular, TypeScript, Xamarin and React Native, but my strongest focus today is backend engineering, API design, integrations, troubleshooting, production support and modernization of .NET applications.

I value clean and pragmatic architecture, reliable delivery, clear communication and working with teams that build software with real business impact. I prefer remote-first or hybrid work environments that promote productivity, focus and a healthy work-life balance.

WORK EXPERIENCE

05/06/2023 - CURRENT - LISBOA, PORTUGAL

SENIOR BACKEND DEVELOPER POLARISING

Working as a Senior Backend Developer in healthcare-related projects for AdvanceCare, focused on backend development, REST APIs, integrations, scheduled background jobs and production support within the .NET ecosystem.

Main responsibilities and contributions:

- Design, develop and maintain backend services and REST APIs using C# and .NET 6.
- Develop scheduled background jobs to support business-critical healthcare processes.
- Integrate backend systems with external services using Azure services such as Blob Storage and API Management.
- Implement and support secure authentication mechanisms using JWT and bearer token-based authentication flows.
- Participate in backend solution design discussions, technical analysis and effort estimation.
- Support the full software development lifecycle, from development and testing to deployment and production monitoring.
- Contribute to troubleshooting, issue analysis and stabilisation of enterprise healthcare systems.
- Work closely with cross-functional teams to deliver reliable, maintainable and scalable backend solutions.

Key technologies:

C#, .NET 6, ASP.NET Core, REST APIs, Azure Blob Storage, Azure API Management, JWT, WSO2, SQL Server, Git, Azure DevOps.

31/01/2020 - 30/04/2023 - COIMBRA, PORTUGAL

SENIOR FULLSTACK DEVELOPER NOESIS

Worked as a Senior Fullstack Developer in a web development team responsible for delivering custom enterprise solutions tailored to different client business needs.

Main responsibilities and contributions:

- Developed web applications using C#, .NET Core 3, Angular 9 and TypeScript.
- Built backend features, APIs and business logic using the .NET ecosystem.
- Worked with the .NET Zero boilerplate to accelerate the development of enterprise web applications.
- Delivered tailor-made solutions adapted to specific client requirements across multiple industries.
- Contributed to mobile application development using Xamarin Forms, Xamarin.Android, Xamarin.iOS and React Native.
- Worked on custom solutions based on nopCommerce, including platform configuration, custom development and feature adaptation.
- Created and adapted custom functionality for business requirements not available out of the box.
- Collaborated with multidisciplinary teams to deliver web and mobile solutions for clients in sectors such as retail, healthcare, insurance, public sector and business services.

Key technologies:

C#, .NET Core, ASP.NET Core, Angular, TypeScript, .NET Zero, nopCommerce, Xamarin, React Native, SQL Server, Entity Framework, REST APIs, JSON, Git.

31/07/2015 - 29/02/2020 - TOMAR, PORTUGAL

.NET FULLSTACK DEVELOPER SOFTINSA - AN IBM GROUP COMPANY

Worked as a .NET Fullstack Developer in the development team responsible for banking solutions for Millennium BCP, mainly in the credit area.

Main responsibilities and contributions:

- Developed and maintained internal banking applications using C#, .NET Framework, SQL Server, Web Forms, Windows Services and SOAP web services.
- Worked on corrective and evolutionary development of business-critical banking systems.
- Supported legacy enterprise applications across multiple layers, including database, backend services and user interface.
- Analysed bugs, implemented fixes and delivered new features under strict banking quality and reliability standards.
- Worked with SQL Server for data access, troubleshooting and support of business logic.
- Contributed to the stability, maintainability and evolution of internal applications used in the banking sector.
- Gained strong experience working with legacy systems, enterprise constraints and production-sensitive environments.

Key technologies:

C#, .NET Framework, ASP.NET Web Forms, SQL Server, Windows Services, SOAP Web Services, JavaScript, HTML, CSS, Git, TFS.

30/06/2014 - 31/07/2015 - FÁTIMA, PORTUGAL

JUNIOR DEVELOPER TRIGÉNIUS – SISTEMAS INFORMÁTICOS, S.A.

Started my professional career as a Junior Developer, working on tailored business and billing solutions using PHC and Primavera systems.

Main responsibilities and contributions:

- Developed and maintained business-oriented solutions using C# and .NET.
- Worked on custom billing and financial integration solutions based on PHC and Primavera.
- Developed an internal scheduling and financial integration tool using C# .NET.
- Created and adapted reports using Crystal Reports.
- Worked with SQL to support reporting, data analysis and business processes.
- Gained strong foundations in business software, reporting, database handling and customer-oriented development.

Key technologies:
C#, .NET, SQL, Crystal Reports, PHC, Primavera.

EDUCATION & TRAINING

2009 - 2014 - TOMAR, PORTUGAL

COMPUTER SCIENCE ENGINEERING- POLYTECHNIC INSTITUTE

2015 - 2018 - TOMAR, PORTUGAL

MASTER'S DEGREE IN COMPUTER ENGINEERING - INTERNET OF THINGS- POLYTECHNIC INSTITUTE

LANGUAGE SKILLS

Mother tongue(s): **PORTUGUESE**

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	B1	B1	B1	B1	B1

OTHER SKILLS

Other skills

Backend Development:

- C#, .NET, .NET 6, .NET Core, ASP.NET Core, ASP.NET MVC, .NET Framework, REST APIs, Web API, Windows Services, SOAP Web Services, JSON, JWT, bearer token authentication.

Databases:

- SQL Server, Entity Framework, SQL, database troubleshooting, data access layers, stored procedures, relational data modelling.

Cloud & Integrations:

- Azure Blob Storage, Azure API Management, Azure integrations, external service integrations, WSO2, API authentication and authorization.

Frontend & Fullstack:

- Angular, TypeScript, JavaScript, HTML, CSS, ASP.NET Web Forms.

Mobile Development:

- Xamarin Forms, Xamarin.Android, Xamarin.iOS, React Native.

Architecture & Engineering Practices:

- Backend solution design, API design, legacy application maintenance, application modernization, production support, troubleshooting, clean architecture principles, pragmatic DDD concepts, maintainable software design.

DevOps & Tools:

- Git, GitLab, GitHub, Azure DevOps, TFS, CI/CD concepts.

Platforms & Frameworks:

- nopCommerce, .NET Zero, PHC, Primavera, Crystal Reports.
